

Project Purpose

This project will enhance and upgrade the City's video system, including video surveillance cameras at key locations such as the Service Center and Lake Lenexa, as well as coordination with schools in local businesses. The proposed cameras will extend the vision of community policing efforts as well as provide a visible deterrent to criminal activity.

Project Description

The project includes the installation of video cameras at Service Center and Lake Lenexa. The camera control system will be integrated with the Police Department and Municipal Services. Additionally, City Hall cameras will be connected to a digital video control system and video feeds from schools, City Center East, and local businesses will be connected to the City's video control system as available.

Location

City Hall, Police Department, Lake Lenexa, Service Center, schools, businesses
